### Mrs. Dudley to Speak.

A treat is in store for the forward looking people of this city when on Friday, May 26, Mrs. Guilford Dudley, of Tennessee, will address them in favor of the adoption of the equal suffrage amendment now pending in this state. Mrs. Dudley is one of the most gifted speakers in the country and this city and state are fortunate in securing her presence. She comes to West Virginia under the auspices of the state Equal Suffrage Association and will spend one week in making speeches in several of the larger cities. While in Clarksburg she will be a guest of the local branch of the state organization. While here she will be the recipient of many social attentions and her stay will be made most delightful.

Mrs. Dudley is a member of one of the pioneer families of Tennessee. Her people have always been noted for their unselfish devotion to the public service. The visitor is young, charming, tactful and thoroughly in earnest, possessed with the gift of eloquence it will be an unusual experience to listen to this welcome guest. Since its founding Mrs. Dudley has been the president of the Nashville Equal Suffrage League, and for the last two years the president of the state organization. It was largely due to her hard work and skillful leadership that the legislature of Tennessee almost unanimously passed the bill favoring the submission of the equal suffrage amendment in that state.

It is certain that a large number of men and women will be present next Friday to hear Mrs. Dudley, and it is equally certain that most of her hearers will afterward be ardently in favor of the amendment. She will speak at 3 p. m. in the Red Cross room of the Masonic temple. Everybody is cordially invited to attend and hear her.

## OF INTEREST TO WOMEN

### Little Hints and Helps.

Use warm water instead of cold when sprinkling your clothes. The steam penetrates and the clothes are more evenly dampened.

Try rubbing your hot iron over waxed paper, and see how smoothly the iron runs over the clothes that are to be pressed.

After washing white silk gloves, stockings or waists, wrap them up in clean white cloth to dry. They will never turn yellow if done this way.

When the oven door squeaks or opens hard, rub a little lard on the hinges of the door and you will be pleased with the result.

When cutting butter for the table first plunge the knife into hot water and then into cold. It will cut a smooth even slice, and the butter will not stick to the knife.

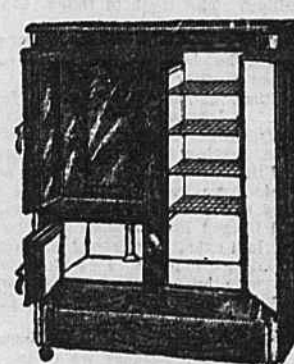

When you are going to use your meat grinder first place a small piece of tin between it and the table. This will save your table from getting dented.

## Cold Facts About Refrigerators

It is the inside of a refrigerator that counts. And no refrigerator is better than its lining. If it is lined with zinc or sheet iron, no matter how it is galvanized or painted, it cannot possibly be sanitary.

In the Leonard Cleanable the lining is of genuine porcelain—all in one piece. Look at the doors; even the edges are porcelain. No joints, no cracks, no crevices to harbor germs and give out odors. You wash it with soap and water like you clean a dish. You can tell this lining from others for it cannot be scratched or marred, even with a hat pin or a knife blade.

Don't accept any other refrigerator than the genuine Leonard Cleanable. Look for the name and be sure. Let us show you this splendid refrigerator and explain its many good qualities. It is made in the largest refrigerator plant in the world and, in our opinion, it is the best.
